CORNER IN COTTON

Sudden Collapse of the Big Monopoly on the New York Cotton Exchange.

D. SULLY, COTTON BROKER, FAILS

He Made the Announcement That He Was Unable to Make Good His Engagements.

Within a Few Moments Cotton Fell Nearly \$13 a Bale From the Highest Figures of the Day—Many Stirring Scenes Ensued.

New York, March 19.—Daniel J. Sully, the cotton operator who has for 15 months been the biggest figure in the cotton markets of the world, and who has "buled" cotton from seven cents a pound to over 17, announced his inability to make good his engagements on the New York cotton exchange Friday. Within a few moments cotton fell nearly \$13 a bale from the highest figures of the day.

Scenes such as followed the announcement of the failure it has been the privilege of few brokers to witness before. Traders in the street have witnessed stock panics in previous years; corners have been broken and many crashes have been recorded but none has been accompanied by such frenzy and confusion.

Business had been transacted in the usual way throughout the morning session with no indication of any unusual event. Shortly after the afternoon session, however, there was a lull in the pit and at about five minutes after 2 o'clock the announcement of the suspension was made by Superintendent King.

For a few seconds there was an ominous quiet over the floor as though the news had stunned all within hearing of the announcement. Then with one impulse a mighty shout went up from the bears, they who had been fighting Sully and the bull clique for months. Hats were thrown into the air to fall where they would, a moment later to be trampled upon by the stampede for the pit. Coats were torn by frantic brokers in their mad efforts to unload their holdings and chairs and campstools were dashed into the pit to emphasize some wild broker's offer to sell. Messengers soon were rushing in and out of the building with orders to sell or buy; telephone booths were besieged, and telegraph offices were flooded with dispatches.

Outside the cotton exchange appearances gave little indication of the pandemonium within until the messengers began to rush between the exchange and the brokers' offices. Soon the news reached the stock, produce and coffee exchanges, and traders on these markets hastened to the scene of the panic. Crowds assailed the entrance to the visitors' gallery, but a double guard was placed at the doors and admittance was refused to all but those accompanied by members.

It was estimated that something like three-quarters of a million bales of cotton were traded in during the 20 minutes of the panic that followed the announcement, and that of this upwards of half a million bales represented "forced liquidation" or the selling out of men whose margins have been nearly or quite wiped out. As the market slumped 250 points during this period the loss falling on this element amounted to something over a million dollars.

Philadelphia, March 19.—Large manufacturers and users of cotton in this city were somewhat pleased with the collapse of the cotton corner, although they maintain that the reduction in prices will have no immediate effect in reducing prices of finished products. Most of the mills report that the season's output has been made up from the high-priced materials.

Business Failures During the Week.
New York, March 19.—Business failures in the United States for the week ending with March 17 number 103, as against 200 last week, 194 in the like week in 1903, 197 in 1902. In Canada failures for the week number 17, as against 27 last week.

Trinidad, Col., March 19.—Five un-

known tramps who were stealing a ride were killed in a freight wreck on the Colorado & Southern railroad at Mayne, a small station 40 miles north of here Friday night.

IN THE CONGRESS.

Representatives Visit the Proposed Jamestown Exposition Site.

Washington, March 19.—Senate—In executive session the nomination of Brig. Gen. Wood to be major general was confirmed by a vote of 45 to 16.

House—The house was in session a little over three hours Friday, an early adjournment being taken to permit members to make a trip to the site of the proposed Jamestown exposition. Although the post office appropriation bill was under discussion the entire time, only one page was completed, making 11 pages in all disposed of. Several amendments were adopted, the principal one being the inserting of a new paragraph in the bill providing for an appropriation of \$500,000 for "unusual business" at third and fourth-class post offices. The postmaster general, however, is requested to make public the regulations under which the allotments are to be made before using any part of this amount and a similar requirement was imposed in the case of the expenditure of the \$1,000,000 for separating mails at third and fourth-class post offices. The paragraph appropriating \$90,000 per annum for the lease of a post office building in New York city to be erected by the New York Central railroad was agreed to after it had been amended so as to not interfere with the discretion given the postmaster general in the matter of the selection of a site.

GEN. WOOD CONFIRMED.

A Notable Contest in the Senate Comes to An End.

Washington, March 19.—By the action of the senate in executive session Friday Gen. Leonard Wood became a major general, taking the rank from August 8, 1903, the day President Roosevelt made the promotion. The contest against his confirmation has been a notable one, beginning November 19, 1903, soon after congress convened in special session and continuing through the present session until Friday, when by a vote of 45 to 16 the nomination was confirmed. The late Senator Hanna was recognized as the leader of the forces opposed to Gen. Wood and had it not been for his death before the disposition of the case it is conceded that the vote would have been much closer.

Five democratic senators voted with the majority in favor of confirmation. They were Senators Cockrell, Pettus, Patterson, Clarke (Ark.) and Dubois.

DANTZLER-LEVER CONTEST.

The House Committee on Elections No 1 Makes Its Report.

Washington, March 19.—In making its report Friday in favor of Mr. Lever, in the Dantzier-Lever contest from the Seventh South Carolina district, house committee on elections No. 1 takes the ground that the investigation shows that Dantzier, a colored man, was not elected. At the same time the committee refuses to say that Lever was elected and the report leaves him in the same position as if no contest had been made. The committee draws the conclusion that if it advanced a ruling on the disfranchisement of the colored vote and declared Lever not elected on that ground the decision would be a precedent for unseating nearly every member in the house from several southern states which it names.

A GREEK ARRESTED.

He Is Charged With Having Committed Four Murders.

Salt Lake City, March 19.—Malanka Nancancie, a Greek, was arrested at Stockton, Utah, Friday charged with committing four murders. He will be taken to Chicago.

CRUISER BOYARIN.

Vessel Was Struck and Sunk by a Floating Mine Dropped by the Japs.

THOUGHT SHE IS BADLY DISABLED

Despite Various Bombardments of Port Arthur the External Aspects of City Remains Unchanged.

Near the Entrance Can Be Seen the Charred Wreck of the Japanese Fire Ship—A Japanese Officer Committed Suicide.

St. Petersburg, March 19.—Concerning the loss of the armored cruiser Boyarin at Port Arthur, a private letter received here says that the vessel was struck by a floating mine dropped by the Japanese. Naval engineers are preparing to raise the Boyarin, though it is considered doubtful that she will be fit for fighting services, as it is feared that the tremendous concussion sustained from the explosion of the floating mine has more than likely strained the frames.

A correspondent who has just visited Port Arthur telegraphed Friday from Mukden as follows:

"Despite the various bombardments at Port Arthur the external aspect of the city remains unchanged, although the enemy fired an enormous number of projectiles. The marine monsters in the harbor look like enormous black hulls and the battleships and cruisers bear the marks of the fighting. The black clouds of smoke from their stacks overhang the town. The cruiser Pallada stands almost ready in the dock.

"Near the entrance of the harbor can be seen the charred wrecks of the Japanese fire ships. Aboard one of the farthest out was found the body of a Japanese officer who had shot himself. Beside him lay a chart showing the course of the fire-ships and the spot where they sank.

"Six hours of firing by the heaviest guns during the last bombardment did not demolish a single building, but cost a few lives. The husband and children of the Baroness Frank, who was decapitated by fragments of shell flying in through the window, were unharmed.

"The enemy in endeavoring to stand as far as possible outside the range of the Russian batteries, rendered their own ineffective. The people are getting used to the bombardments and the Japanese squadron cruising in the offing caused little alarm. Occupations are resuming their wonted course and many stores have been reopened.

"Not a few women heroically refuse to leave Port Arthur, regardless of the tragic death of Baroness Frank. During the height of the cannonading one woman, armed with dressings for wounds, wandered the streets ready to afford aid to the wounded.

"During the engagement between the Russian and the Japanese torpedo boat destroyers the boats came into very close quarters, being within a few fathoms' length of each other. A torpedo from the Russian destroyer Vlastin tore off the stern of one of the enemy's destroyers, her captain standing on the bridge as she sank amidst wild cries."

SUBMARINE BOAT RUN DOWN.

Eleven Persons Were Drowned Off the Nab Lightship.

Portsmouth, March 19.—The British submarine boat No. A1 was run down and sunk off the Nab Lightship Friday by a Donal Currie liner and 11 persons were drowned, including Lieut. Mansergh, the senior officer engaged in submarine work. The liner passed on and reported that she had struck a torpedo.

At the time she was struck the vessel was off the lightship engaged in maneuvers and was lying in seven fathoms of water waiting the approach of a battleship.

The boat was one of the newest of the fleet of submarine vessels and was built from the latest models, but she has always been a bad diver. She was inspected recently by both King Edward and the Prince of Wales.

THE TOWBOAT GOBLE.

Sunk in the Mouth of the Big Sandy—Two Men Were Drowned.

Ashland, Ky., March 19.—The steamer M. B. Goble, which sank in the mouth of the Big Sandy Thursday midnight, will be almost a total loss. She had just returned from Ashland, where she went to coal, and was very heavily loaded on the bow. Capt. Carl Mace, of Ashland, one of the owners, was at the wheel, and just as the boat entered the mouth of the Big Sandy the bow began to sink and in three minutes she rested on the bottom in 80 feet of water. About six inches of the pilot house is out of the water. Failure of the siphon pump to work properly and the heavy load on the bow is thought to be the cause. The Goble was just ready to hitch onto her tow of timber to be taken to Louisville and carried a double crew of 12 men. First Engineer Charley Mains, of Ashland, stood by his post and was caught like a rat in a trap as was also the cook, William Bartlett, of Catlettsburg. The other ten members of the crew escaped by swimming to the rafts of timber about 100 feet away. The Goble was owned by M. B. Goble, of Catlettsburg, Capt. Carl Mace, of Ashland, and Mont J. Goble, of Cincinnati. She was valued at \$6,000 and was insured for about \$4,000 in a Cincinnati insurance company.

SHOT HIMSELF.

He Jested With His Wife Before He Took His Life.

Louisville, Ky., March 19.—Albert L. Smith, a Louisville man of wide acquaintance over the country, committed suicide Friday by shooting himself with a revolver. He left his wife laughing in one room while he entered the next. A minute later she heard the pistol shot and found him lifeless on the bed. He left no explanation of his deed. He was the proprietor of the largest men's furnishing store in Louisville and Saturday he was to open a handsome new store in Fourth avenue. His brother committed suicide two months ago by leaping from the Big Four bridge into the river.

The Louisvilles Lost.

Louisville, Ky., March 19.—In the last game of the season the Cincinnati Y. M. C. A. basketball team won from the Louisville Y. M. C. A. by the score of 24 to 15 after a hot contest here. A large crowd was in attendance, and the home team made a great effort to carry away the honors.

Speculated in May Cotton.

Lexington, Ky., March 19.—W. R. Welch, the local poolroom operator and broker, cleaned up a straight \$13,000 strike Friday by a speculation in May cotton. Other local speculators were in on the deal, and each one reaped a similar harvest of wealth.

Indianapolis, Ind., March 19.—Secretary-Treasurer W. B. Wilson, of the United Mine Workers, announced Friday that the tellers had finished the count of the referendum vote of the miners on the operators' compromise proposition, which provides for a reduction of 5.55 per cent. from the present wage scale, which resulted in a majority of 31,141 in favor of accepting the two years' contract with the reduction.

The total vote cast by the miners' local unions in Indiana, Ohio, Western Pennsylvania, Michigan, Kentucky, West Virginia and Iowa was 165,887, of which 98,514 voted in favor of accepting the reduction, while 67,373 voted in favor of a strike.

The two states favoring strike were Illinois and Iowa. These returned a majority of 23,513 against peace. Indiana, which was considered the real fighting ground, voted for the compromise by a majority of 5,300. THE constitutional amendment providing for a return to the viva voce system of voting and doing away with the secret ballot, will be submitted to a vote of the people at the November election. The people of Kentucky will hardly take a step backward and return to the old system of voting.

THE Mayor of Springfield attributes the riots at that place last week to the failure of the courts and juries to punish criminals. He states that twelve murders were committed there within the past eighteen months, not a man being electrocuted and most of the murderers escaping with very light sentences. "The courts all over the country lay themselves liable for the outbursts of mob spirit," says the Georgetown News-Democrat. "We have recently seen a man given a new trial at Hamilton, Ohio, who had killed four persons and who confessed to the murder of the last one—his wife—on the ground that there must be corroborative testimony before a conviction can be made on confession. Nobody saw him kill his wife, or put her body in a shoebox and haul it to the river and throw it in, and the State is at the end of its string. The only recourse is in taking the self-confessed murderer before Judge Lynch, who is not such a stickler for arbitrary rules."

NEW PLAN TO REACH POLE.

Walter Wellman, Famous Arctic Explorer, Claims to Have New Method Which Cannot Fail.

The annual dinner of the Arctic club, composed of men who have had experience in the arctic regions, was held recently at New York city. The guest of honor was Walter Wellman, the explorer, of Washington. Mr. Wellman, in the course of his address, proposed that the Arctic club itself fit out an expedition to reach the north pole. He suggested that a committee be formed to prepare the plan and select the leader and the members of the party. He said that if an American citizen of wealth who wished that America should have the honor of being first to reach the pole would come forward with the necessary funds, about \$100,000, he would turn over to the club his plan for attaining the pole. "From actual experience in the field and study and experiment," said the speaker, "I have evolved a plan which is morally certain of securing the trophy for the expedition which uses it. The plan embraces new principles and methods which double the traveling effectiveness of a sledging party. With present methods a party can make at the most an average of ten miles a day. By my plan there is no doubt at all that 20 miles per day can be made on an average. The method which I propose is perfectly simple and feasible, and will mark as great an advance in sledging as the electric car marked over the horse car. An expedition employing this plan is as sure to reach the pole as a sailing ship is to reach port on a long voyage. That is, barring shipwreck or other unlooked-for disaster."

Mr. Wellman added that he had no wish to go again to the arctic regions himself, but would aid the club in finding a good commander and crew if the funds could be procured.

DEERING MACHINERY and TWINE.

Read what a Mason County farmer says of his Deering Binder:

This is to certify that I bought a Deering Tongue Truck 8 ft. Binder in 1902, and wish to say that it is as far ahead of the old 6 and 7 ft. binders as day is brighter than night. In one day I cut 30 acres of heavy wheat, and without tiring my horses any more than cutting 15 acres with the old 6 ft. binder. It is perfectly free from neck weight or side draft and a pleasure to operate, elevating grain that the old small binders would choke on. Too much cannot be said in favor of this matchless labor saver. I can cheerfully recommend it to all my friends as the binder par excellence. Very truly,
CHAS. T. MARSHALL.

This is only a sample of what everybody says who has a Deering Ideal Binder.

Whiskey and Beer Habit

PERMANENTLY CURED BY

"ORRINE,"

A SAFE, SURE AND HARMLESS SPECIFIC

Physicians pronounce drunkenness a disease of the nervous system, creating a morbid craving for a stimulant. Continued indulgence in whiskey, beer or wine eats away the stomach lining and stupefies the digestive organs, thus destroying the digestion and ruining the health. No "will power" can heal the inflamed stomach membranes.

"ORRINE" permanently removes the craving for liquor by acting directly on the affected nerves, restoring the stomach and digestive organs to normal conditions, improving the appetite and restoring the health. No sanitarium treatment necessary; "ORRINE" can be taken at your own home without publicity. Can be given secretly if desired.

CURE GUARANTEED OR MONEY REFUNDED.

Mrs. E. Wycliff, New York City, writes: "ORRINE" cured my husband, who was a steady drunkard for many years. He now has no desire for stimulants, his health is good and he is fully restored to manhood. He used only five boxes of "ORRINE."

Mrs. W. L. D. Helena, Mont., writes: "I have waited one year before writing you of the permanent cure of my son. He took sanitarium treatment, as well as other advertised cures, but they all failed until we gave him 'ORRINE.' He is now fully restored to health and has no desire for drink."

Mr. A. E. L., Atlanta, Ga., writes: "I was born with a love of whiskey and drank it

for thirty-two years. It finally brought me to the gutter, homeless and friendless. I was powerless to resist the craving and would steal and lie to get whiskey. Four boxes of 'ORRINE' cured me of all desire and I now hate the smell of liquor."

Price \$1 per box. Mailed in plain, sealed wrapper by Orrine Company, 817 14th St., Washington, D. C. Interesting book—Treatise on Drunkenness, (sealed) free on request.

I'm "kep' in" when I'm "tardy,"
An I'm "kep' in" when I'm late;
I'm "kep' in" for "position"—
That means not settin' straight.

I'm "kep' in" on my joggerty,
My readin' an' my writin',
An' I'm "kep' in" some for laughin',
But I'm "kep' in" most for fightin'.

I'm "kep' in" when my marbles
Comes rattlin' from my pockets,
An' sometimes when my matches
Gets mixed up with my rockets.

I'm "kep' in" ef I whisper,
An' I'm "kep' in" ef I chaw
The piece of gum I've borried,
An' am warming in my jaw!

The truth is, 'at I'm "kep' in"
Most everything I do!
But one jolly thing about it
Is, the teacher's "kep' in," too!

Richard Buhler will be the attraction at the opera house this afternoon and evening. The vehicle used to present Mr. Buhler this season is a new play exploiting the deeds of Longfellow's hero, "Paul Revere." The scenic environments of the play are worthy of mention and every attention has been given the smallest detail by Dave A. Weis, the manager, to make the production worthy of consideration. Tickets can be secured in advance at Ray's.

PITHY POINTS.

That anti-lynching society at Springfield, Ohio, owes it to itself to disband.

That anti-lynching society at Springfield, Ohio, will at least withdraw from active service now.

That hypocritical, canting crowd at Springfield, Ohio, having sworn to the wind, have reaped the whirlwind.

The Springfield, Ohio, people were pursuing a method that would have done away with lynching entirely if carried to its legitimate conclusion, as there would be no colored persons left to lynch had their plan of arson, murder and persecution carried and obtained in other sections.

MRS. JOHN H. WALTON.

Death Claimed This Good Woman Friday at Noon—The Funeral Will Take Place Sunday Morning.

The venerable Mrs. Susan Walton died Friday at noon at her home "Walton Place" near Germantown. She had been an invalid for several years, as a result largely of the infirmities of age.

Mrs. Walton was a daughter of Joseph Frazee, a pioneer of that section, and was seventy-five years of age. Her long life was spent in that vicinity. A woman of noble Christian character, she ever commanded the love and respect of the community. Surviving are one daughter, Mrs. Belle Burdette, and two sons, Mr. Joseph F. Walton, of Germantown, and Judge Matt Walton, of Lexington. She also leaves two half-brothers, Dr. J. M. Frazee, of this city, and Mr. D. C. Frazee, of Lexington. Her husband, the late John H. Walton, died five or six years ago.

The funeral will take place Sunday at 10 a. m., the interment following in the cemetery at Germantown.

PROMINENT MINISTER COMING.

President Burriss A. Jenkins of Kentucky University to Preach at the Christian Church To-morrow.

The announcement that President Jenkins of Kentucky University is to preach at the Christian Church to-morrow will be received with pleasure by his many friends in this city and vicinity. His services are in great demand, and he is called to many different cities during a year to preach or deliver addresses. The Maysville church is therefore fortunate in securing him for to-morrow. He will preach at 10:45 a. m. and 7 p. m., and as this will probably be his only visit here for some time, large audiences will no doubt be present to hear him. The public cordially invited. The choir will sing an anthem at both services.

Sunday school at 9:30 a. m. and Endeavor at 6:15 p. m.

Was Fatally Burned.

Brief mention was made Friday of the death of Miss Lou Laycock at her home near Russellville, O. She was standing before a looking glass hanging over a fire place, adjusting her hair, Tuesday morning, and while thus engaged her clothing took fire and she was fatally burned, dying Thursday. She was a sister of Mrs. Joseph Slack, of Jersey Ridge.

Men's Meeting To-morrow.

Possibly you might be helped at Baptist Church Sunday. Pastor Musselman will preach on "The Temptations of Christ" in the morning and at night on "The Redemption of Tongue." Come anyway.

DR. GEORGE H. NEAL.

A Former Resident of This City Died This Week at Falls City, Nebraska.

Maysville relatives received the sad news Friday of the death of Dr. George Humlong Neal at Falls City, Neb., March 15th at 4:20 p. m. He had been in feeble health some time. The funeral took place Thursday at 2 p. m. at the Falls City Christian Church, and the remains were laid to rest by the side of his father at that place.

Dr. Neal was born in Charleston Bottom and was the second son of the late W. E. Neal. The family resided in Maysville several years, and moved from here to Falls City, where Dr. Neal spent the rest of his life with the exception of a few years at Eldorado, Kan., and Little Rock, Ark. His wife and one daughter survive, and he leaves one brother, Dr. Dwight B. Neal, of Little Rock. The latter was with him in his last sickness. He leaves a number of relatives in this city and vicinity and also at Germantown, among them Mrs. Charles Hubbard, of West Third street, and Mr. W. J. Neal, of the West End.

FIRE.

That ancient idea that pianos are a luxury. Let there be something doing with your brain tissues. Look around and find, if you can, a piano player out of a position. Investigate and learn that people who can play a piano have a steady income and light work.

\$10,000 LOSS.

The ancient idea was to spend one's entire life digging—nose kept to the grindstone until the appreciation of pleasure or comfort was entirely ground out of one—all to accumulate a \$10,000 estate to leave to one's heirs, and along comes a fire or some other adversity and your heirs are left destitute.

NO INSURANCE.

Absolutely no insurance that after your strenuous life your children would not suffer for the bare necessities. All they had to depend upon was the property left them which was subject to adversity in a thousand different natures.

BAD BUSINESS.

This is certainly unwise. Leave your children that which can never be taken from them—a musical education. A musical education insures a steady income, and, with little effort, and the pleasure in gaining this education makes this old world a lovely one.

SUSPICIOUS CHARACTERS.

As the greatest aid to securing a good musical education, suspicion rests upon the instruments manufactured by The Smith & Nixon Piano Co. Every one says they are the best. Where there is so much smoke there must be fire. We manufacture high grade pianos and sell them to you at wholesale price.
